

Pastor's corner - September 25, 2011 - Parish Pastoral Plan (Continued)

No, this is not the same pastor's corner as last week's except that you have the same circle of church models as below! I felt it was important to reproduce it again because these dimensions of church within the circle can help all of us to improve the quality of our parish life. Vibrant, active parishes provide the means through which people, you and I, all of us, grow in their faith. The Parish as a whole teaches all of us by how we act and behave. If the parish reaches out and is welcoming and inclusive, it sends the message that we belong to Christ. If the parish prays well in public, it sends the message that prayer is vital to our Christian life. Please, continue your reflection and share it with us.

Shalom, *Je Rolff, OP*
